

The Annual Festival Guide

Welcome to our 2021 Festival Listing. Usually, this listing is placed in the January issue and, in the past, has been quite a bit more extensive. We delayed publication of this listing because, due to the COVID-19 pandemic, many festivals were uncertain about their 2021 events. Unfortunately, that is still the case and that is why our listing is so sparse this year and why we have not listed the dates of these events. Many events are still uncertain about their dates. We are providing festival location, names, contact information, and website addresses. If you want to know the dates for these events, please refer to their websites for the latest updates.

In the past the Festival Listing has also included instructional camps, workshops, and seminars. We have removed those from this year's Festival Listing, but we will be including them in our April issue. That issue will have a special focus on "Learning How to Play" and thus we thought that the April issue would be better suited to providing the Camp and Workshop Listing.

Hopefully, we will see COVID-19 start to disappear this year and we can get back to our normal, and fully-loaded, Festival Listing in 2022.
